## Statement of intent

St Albans Independent College understands that using online services is an important aspect of raising educational standards, promoting pupil achievement and enhancing teaching and learning.

The use of online services is embedded throughout the College; therefore, there are a number of controls in place to ensure the safety of students and staff. [Filtering & Monitoring](#) are both important parts of safeguarding students and staff from potentially harmful and inappropriate online material.

The breadth of issues classified within online safety is considerable, but they can be categorised into three areas of risk:

- **Content:** Being exposed to illegal, inappropriate or harmful material, e.g. pornography, fake news, and racist or radical and extremist views.
- **Contact:** Being subjected to harmful online interaction with other users, e.g. commercial advertising and adults posing as children or young adults.
- **Conduct:** Personal online behaviour that increases the likelihood of, or causes, harm, e.g. sending and receiving explicit messages/pictures, and cyberbullying.

The measures implemented to protect pupils and staff revolve around these areas of risk. Our College has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all students and staff.

## 1. Legal framework

### 3. The curriculum

3.1. Online safety is embedded throughout the curriculum; however, it is particularly addressed in the following subjects:

- RSE
- Personal Development
- PSHE
- Computing

3.2. The curriculum and the College's approach to online safety is developed in line with the UK Council for Child Internet Safety's '[Education for a Connected World](#)' framework and the DfE's '[Teaching online safety in College](#)' guidance.

3.3. Pupils are taught the underpinning knowledge and behaviours that can help them to navigate the online world safely and confidently regardless of the device, platform or app they are using.

3.4. Online safety teaching is always appropriate to pupils' ages and developmental stages.

3.5. The underpinning knowledge and behaviours pupils learn through the curriculum include the following:

- How to evaluate what they see online
- How to recognise techniques used for persuasion
- Acceptable and unacceptable online behaviour
- How to identify online risks
- How and when to seek support

3.6. The online risks pupils may face online are always considered when developing the curriculum. The risks that are considered and how they are covered in the curriculum can be found in Appendix 1 of this policy.

3.7. The DSL is involved with the development of the College's online safety curriculum.

3.8. The College recognises that, while any pupil can be vulnerable online, there are some pupils who may be more susceptible to online harm or have less support from family and friends in staying safe online, e.g. pupils with SEND and LAC.

Relevant members of staff, e.g. the SENCO and designated teacher for LAC, work together to ensure the curriculum is tailored so these pupils receive the information and support they need.

3.9. Class teachers review external resources prior to using them for the online safety curriculum, to ensure they are appropriate for the cohort of pupils. When reviewing these resources, the following questions are asked:

- Where does this organisation get their information from?
- What is their evidence base?
- Have they been externally quality assured?
- What is their background?
- Are they age appropriate for pupils?
- Are they appropriate for pupils' developmental stage?

3.10. External visitors may be invited into College to help with the delivery of certain aspects of the online safety curriculum. The Principal and DSL decide when it is appropriate to invite external groups into College and ensure the visitors selected are appropriate.

3.11. Before conducting a lesson or activity on online safety, the class teacher and DSL consider the topic that is being covered and the potential that pupils in the class have suffered or may be suffering from online abuse or harm in this way. The DSL advises the staff member on how to best support any pupil who may be especially impacted by a lesson or activity.

3.12. Lessons and activities are planned carefully so they do not draw attention to a pupil who is being or has been abused or harmed online, to avoid publicising the abuse.

3.13. During an online safety lesson or activity, the class teacher ensures a safe environment is maintained in which pupils feel comfortable to say what they feel and are not worried about getting into trouble or being judged.

3.14. If a staff member is concerned about anything pupils raise during online safety lessons and activities, they will make a report in line with sections 15 and 16 of this policy.

3.15. If a pupil makes a disclosure to a member of staff regarding online abuse following a lesson or activity, the staff member will follow the college reporting procedure on CPOMS.

#### **4. Staff training**

4.1. All staff receive safeguarding and child protection training, which includes online safety training, during their induction.

4.4. The DSL and any deputies undergo training to provide them with the knowledge and skills they need to carry out their role, this includes online safety training. This training is updated at least every two years.

4.5. In addition to this formal training, the DSL and any deputies receive regular online safety updates to allow them to keep up with any developments relevant to their role. In relation to online safety, these updates allow the DSL and their deputies to:

- Understand the unique risks associated with online safety and be confident that they have the relevant knowledge and capability required to keep pupils safe while they are online at College.
